

LNG Deep Sea Port in Eleusis Greece

The ultimate con job to discredit the Trump Administration and undermine the US-Israel relations.

This is an exclusive report highlighting the trap set towards the Trump administration by a combination of malign agents. The conspiracy:

Aim: To terminate the 3+1 and IMEC initiatives, while promoting Middle Corridor, [Development Road Project](#) that will benefit the enemies both of Israel and USA.

Method: deliberate procrastination by the Greek government in strategic 3+1 projects (GSI, Eastmed pipeline), an incoming Aegean Sea maritime dispute “resolution” through joint Sea wind farms, the continuation of the great scam of the [Onex Shipyards- DFC “development” deal](#).

Stakeholders: USEmbassyAthens, Geoffrey Pyatt, the Atlantic Council, CCP, Qatar, Norway, Turkey, some leaders of the Greek Diaspora, the Greek Orthodox Archdiocese of America, the Ecumenical Patriarchate, the current Greek Government, Massad Boulos, Tom Barrack.

Impact: Encirclement of Israel, destabilization of the Eastmed and resurgence of the Turkic empire as the key strategic player in the region ultimately with the CCP/Qatari alliance calling the shots.

Carriers: US ambassador Kimberly Guilfoyle, PM Kyriakos Mitsotakis, Hakan Fidan

Venues: Atlantic Council & Antenna group [AEGGIS](#) initiative and 5x5 Greek-led initiative

In short, the new US ambassador to Greece, is aggressively promoting a project, carefully prepared by her predecessor Jeffrey Pyatt, regarding the now defunct Elefsis shipyards which are the spearhead of an effort with the aim to discredit the Trump administration and blow up the stability of the Eastern Mediterranean region for years to come.

We will summarize the key points:

Fact 1: Geoffrey Pyatt and the Atlantic Council are still calling the shots in the Eastern Mediterranean region in full coordination with CCP, Qatari affiliated individuals both in and out the Trump administration.

Fact 2: Geoffrey Pyatt, high level members of the Greek Government and foreign actors are involved in the project - corruption scandal.

Fact 3: the “3+1” and IMEC initiatives are not in the interest of the current Greek government as it is fully aligned with the Atlantic Council agenda, which insists on a resurrecting the Turkish Ottoman empire and nations like Greece, Cyprus, Israel to become satellite states at best, at worst for them to cease to exist. Furthermore, the ruling elites in Greece are in full conjunction with CCP, Qatar and Turkey, so cheers and big words about US-led initiatives by the Greek government are pure deceit and they are just paying lip service to the Trump agenda.

Fact 4: If the Eleusis project takes effect, it will lead to a disastrous maritime dispute “**solution**” for the Aegean Sea under the guise of “ESG, Green corridors and Wind farms”, Greek sovereignty (Kastellorizo) will be handed over to Turkey and destabilize the 3+1 and IMEC, thus giving the upper hand to Qatar and China.

Fact 5: USAmbGR Kimberly Guilfoyle is encircled by malign actors (both private consultants and State dept officials) deliberately misguiding her to promote this insidious project. Furthermore, Republicans Overseas Hellenic Chapter has been in contact with her for months providing intel and reports without going public about these communications. Upon her arrival to Greece, she has been **avoiding** meeting with the GOP.

Fact 6: the Greek diaspora, the Greek Orthodox Archdiocese of America and the Ecumenical Patriarch are infiltrated by Qatari, CCP and Turkish affiliated individuals promoting this project.

This report is a warning cry and a reality check for what is really happening behind the scenes, always orchestrated by the Axis of Evil. The establishment in Greece is merely paying lip service, deliberately delaying the projects that would safeguard the Eastern Mediterranean and Israel from this Axis of Evil. The Great Sea Interconnector cable fiasco demonstrates this clearly, just as happened with the EastMed pipeline project.

It is clear that our adversaries prefer the Middle Corridor and [Development Road Project](#) (the Qatar–Iraq–Turkey corridor, remember - [US wants Assad out for not backing Qatari pipeline: Kennedy](#)) and will do whatever possible to thwart the IMEC and 3+1 initiatives, just as they did with the October 7th attack.

In their view, Trump is a temporary administration, and sooner or later they will crack him with manufactured scandals, and big geostrategic mistakes.

Atlantic Council

The Atlantic Council is MI6, German, Turkish, Qatari and Chinese talking points combined in a think tank. Of course, there are more think tanks with the same talking points (RUSSI, Chatham House, Brookings etc) but in southern Europe and southern Mediterranean region it does have the most powerful influence.

Although initiatives, such as the Vertical corridor make sense for the decoupling from Russian energy, the bigger picture is that they promote Turkey, as the most vital strategic partner of the US, and the “Gatekeeper” of Chinese goods and energy from the **Middle corridor** and the **Iraq Development Road** project.

The resurgence of the Ottoman Empire (this time it will include whole of Europe also – Eurabia, the Balkans and Turan nations will work as its satellite states) in order to achieve a strategic counterbalance to Russia. They think that Turkey and Turanism is the key to the dual containment strategy of penetrating the Russia – China axis simultaneously and keep the UK interests in the region (see notes).

Of course a dangerous bet, as Turkey is always playing “neutral”, and playing both sides of the table, as we can see in the most recent SCO and BRI events that eventually where Turkey was present. So eventually, Middle Corridor will fall to the hands of CCP.

The only thing for sure, is the hatred of the Atlantic Council and its Turkey branch towards Israel, and specifically towards the Netanyahu government. Why? Because it is the final obstacle to elevating Turkey to a regional and world player.

This article is one of the most pro-Turkey articles out there, admitting openly that Qatari influence is stronger than Israeli lobbying efforts, and that Netanyahu has lost all of its cards...

The Onex – Eleusis and Syros scandals

Geoffrey Pyatt, high level members of the Greek Government and associated Greek individuals are involved in the project - corruption scandal of Eleusis.

Historical background: [Panayiotis Xenokostas](#) resigns his commission from the Hellenic Air force Technical section suddenly and decides to become an entrepreneur. After failing dismally, and amassing 8.5-million-euro debt, mostly to the Greek Govt. via non-payment of taxes and Social Security contributions, he tries his luck in New York, but with no success, although he managed to make several good connections with the ArchDiocese of New York, and the Karloutsos crowd. He managed to enter the social circle of the mostly Democrat leaders (then) of the Greek diaspora and fabricated the image of a successful émigré Greek businessman who travelled to the US in order to expand his (non-existent) enterprises on US soil.

Having met total failure in various attempts at business deals, he made use of his contacts in the Archdiocese in order to facilitate his return to Greece (which was imperative, as he had no income or US revenues which would allow him to remain in the US) falsely portraying him as now a returning successful businessman. Meanwhile he had met Jeffrey Pyatt, future ambassador to Greece, Alexandros Kostopoulos, former secretary of the AmCham based in Greece and others.

**PANOS XENOKOSTAS ELECTED TO
BOARD OF DIRECTORS OF HELLENIC
AMERICAN CHAMBER OF COMMERCE**

Panos Xenokostas

Panos Xenokostas, a member of Leadership 100, was elected last summer to the Board of Directors of the Hellenic American Chamber of Commerce in Athens. President & CEO of ONEX, Xenokostas received the honor because of his advocacy of Hellenic-American bonds over many years and as acknowledgement of his entrepreneurial accomplishments.

Xenokostas, who recently relocated to the United States, has made it his goal to forge greater unity between Greece and the Greek Community in America. The Chamber stated that his election to the Board and membership on the Chamber's New Technologies & Advanced Services Committee, combined with his membership in Leadership 100 and the American Hellenic Chamber of Commerce in New York, will give him a unique opportunity to strengthen those bonds. "He is the embodiment of the Greek entrepreneur who, with sincere love for his country during difficult times, will contribute to new opportunities for investments, striving towards a new blossoming of Hellenism," according to the Chamber.

[2015

[2017 [Capital Link Forum](#)

When he arrived in Greece he formed many shell companies, one of which ([Onex Technologies](#)) started obtaining small contracts from a small number of municipalities regarding transcription of minutes of public hearings.

His break came in 2017, when the Syros shipyards ceased to operate, due to 80 million euros accumulated debt. Then, Geoffrey Pyatt (having been named US ambassador to Greece from 2015) introduced him to the Greek government as a businessman of great wealth who had the expertise and capital to buy the failed shipyards and bring them back to life. This declaration by Pyatt to the Greeks was an intentional lie on his part, as he was perfectly aware of the truth.

Xenokostas “bought” the shipyard with a 10 million dollar post-dated cheque, which ultimately bounced, and by sheer luck again, his hide was saved by the workers union and a subcontractor named V.Savvides who had monies owed to him by the shipyard, and not wishing to lose it completely, took over the management for a year, between 2017 and 2018, and with literally no involvement by Xenokostas managed to keep the business running and actually managed to expand its operations.

From 2019 until 2020, Pyatt steered Xenokostas to make a similar bid for the Elefsis defunct shipyards, although the stakes here were much larger as the total accumulated debt exceeds half a billion euro. Xenokostas has managed to secure an operations permit to continue the working of the shipyard but the venture is a dismal failure as it has amassed an additional 100 million euro debt.

Again, with Pyatt's help, and later with the next US ambassador to Greece, George Tsuins, he projected the image of a successful businessman to the Greek government and with their collusion got involved in the huge scandal of the collapse of the Greek Postal Service. In short, Xenokostas was the prime subcontractor for labour for the Greek Postal Service, but managed there too to amass another 100 million euro in debt.

The US twist to the above story is that with the collaboration of a Turkish backed company, Delphos, which specialized in funneling USAID and DFC (subsidiary of USAid) to projects worldwide which would assist Turkey in projecting soft power.

Ceo of Delphos **Bart Turtelboom** is working for a Turkish company and is involved in a big money laundering scandal at Kosovo...

Vlora Airport, hostage of Russian capital: silence that betrays Edi Rama

After Behgjet Pacolli's agreement with the Russian offshore network "Compartment Bernina", the Albanian government is silent about an affair that endangers national security and relations with the USA and NATO, while parliamentary committees are asleep...

The facts have shown that behind every concession project, even in strategic security sectors, that Prime Minister Edi Rama has declared as "developments of European standards", there are mafia circles and oligarchic groups of Turkish, Russian, Serbian, Arab and Chinese descent. It is no coincidence that even after the concession for the construction and operation of the Vlora International Airport (VIA), data for Russian offshore financing has emerged, infiltrated through the foreign agreement connected by Behgjet Pacolli.

Vlora Airport, hostage of Russian capital: silence that betrays Edi Rama

This agreement was signed on March 26, 2025, between Pacolli, on behalf of his company MABCO Construction S.A., and Bart Turtelboom, representative of Delphos Securities SARL, who is a Russian finance manager, part of the Compartment Bernina group of companies.

Although the government faces facts indicating that Pacolli has left the concession and Vlora Airport hostage to Russian counties, Prime Minister Edi Rama has not yet come out to explain the scandal, which directly affects national security and the partnership with the US and NATO. Rama's silence has also dictated the silence of the Assembly, which has approved the concession contract and opened the way for the government to give the airport to the companies "MABCO Construction SA", "YDA Insaat Sanayi Ve Ticaret Anonim Sirketi" and "2A Group".

The government's responsibility is clear: initially, Rama allowed the Turkish company to sell 40% of its shares to Pacolli for just 4,450 euros. Later, Pacolli sold 47% of shares to the Kosovan company "2A Group" for 4,700 euros, but without reflecting it in the QKB extract, until he borrowed 100 million euros from the Russian offshore group.

By law, any transfer of shares and borrowing involving concession assets such as land, facilities and exploitation rights must be approved by the government. But in the case of Vlora Airport, Rama has allowed Pacolli to sell shares and borrowing with dubious funds, endangering the control of a strategic infrastructure of the country.

Parliamentary committee "asleep" towards Russian capitals

To prevent Russian financial interference, Edi Rama himself created a parliamentary commission. But this commission has never met to request an investigation into the involvement of Russian capital in the Vlora Airport project.

On October 17, 2025, the Tirana Court blocked the decision of the Assembly of the company "Vlora International Airport-VIA", scheduled for October 20, following a lawsuit by the "2A Group" partner, claiming conflict of shares with Pacolli. However, this is no longer a civil matter. It is a national alarm indicating that a strategic asset, like the country's second international airport, could end up under the influence of Russian capital and the Albanian government is keeping a silence worth more than any admission of guilt.

In this situation, SPAK does not react, parliament sleeps and Rama pretends not to hear anything. His silence is the strongest proof that scandals are not political accidents, but part of a system he himself has built. /Pamphlet

Delphos prepared and had the plan [approved](#) of providing a loan by DFC to Xenokostas's companies of up to 125 million US\$ but only after he had managed to secure ownership and equal financing for the Elefsis shipyards, something though which will may take years and stumbles on the fact that Xenokostas is virtually broke and has been over the last 15 years. Recently, he announced in the presence of the new US ambassador to Greece, Kimberly Guilfoyle that he would be converting the shipyard of Elefsis into a LNG terminal for transatlantic LNG carriers, but that is an impossibility, as the straights of Salamis are 5 meters too shallow for these types of ships, while dredging is completely out of the question because the seabed is littered by the wrecks of the ancient triremes used in the naval battle of Salamis, and destroying them would be considered sacrilege not just by Greeks, but by the entire civilized world.

In joint statements by him and Geoffrey Pyatt between 2021 and 2024, it was declared that the ONEX shipyards would be play a pivotal role in Greece's "Green Transition" and the project was roughly to covert the shipyards from maritime repair bases **to plants designing and building offshore wind turbine platforms**

[\[https://www.youtube.com/watch?v=chSLVP5F0KE\]](https://www.youtube.com/watch?v=chSLVP5F0KE), a project very dear to the Greek government, which to this day affirms its commitment to the net-zero policy.

John Kerry's associate, leftist Greek MP, Maria Damanaki, ex-commisioner to the EU and currently working on renewable, recently joined the Greek center (leaning to the left) ruling party "New Democracy (Nea Dimokratia)" **to facilitate the project of creating massive wind farms in the Aegean Sea, which in an odd twist would be jointly operated by Turkey and Greece, according to her recent public statement.**

Wind Turbines, CCP, Turkey and the Aegean Sea

It is extremely worrying that CCP-affiliated companies (Norwegian mostly) are interacting heavily with ONEX and the Greek government related to projects of Wind Turbines and Green corridors in the Aegean.

Even more interesting that cash flow from USAID (EEA Grants- Norway-Lichtenstein-Island consortium) has been funding Woke Pro-CCP and Pro-Qatari institutes like ELIAMEP, to do research and consult the government on Greek-Turkey cooperation on Sea Energy farms in the Aegean sea.

(one of the many USAID funded deals)

It would be disastrous if the State Dept should proceed to the funding of insidious Green Energy projects (like the Onex Eleusis), something that goes not only against the DJT agenda, but is also a major security risk to Greece's sovereignty, and to the 3+1 and IMEC initiatives.

Regarding the Vertical Corridor, it is remarkable that USAmbGR was not informed by the embassy staff about the following obstacles, despite her claim that she has been working on the issue for the last 10 months, even before she landed to Greece...

Why Vertical corridor is currently inoperable and cannot be utilized in the near future?

- Diameter of the Alexandropouli FSRU and Revithousa LNG terminal are between 3 ½ inches and 5 inches (way too small- can barely cover a small town).
- A pipeline extension to Northern Europe/ Ukraine will need at least 3 to 5 years to be constructed, and that is excluding the time needed for the planning period.
- Slots in Revithousa island terminal for the next year are already reserved by LNG carriers transporting Russia and Azeri LNG.
- Turkey does not backtrack to US demand to disengage from Russian Gas, so Turkey will remain the energy corridor

The Greek diaspora, the Greek Orthodox Archdiocese of America and the Ecumenical Patriarch

The Greek diaspora, the Greek Orthodox Archdiocese of America and the Ecumenical Patriarch are all infiltrated by Qatari, CCP and Turkish affiliated individuals benefiting from the Onex Elefsis project.

Note that every person mentioned below (most of them Archons of the Patriarchate) are actively engaging with each other, including Geoffrey Pyatt, PM Kyriakos Mitsotakis and Giorgos Gerapetritis (Foreign Affairs Minister) forming a non-penetrable “clique” promoting the interests of Turkey and the CCP throughout the years. **Their upcoming goal is to promote a Greek-Turkey maritime dispute “resolution”, in order to get beneficial terms for the Patriarchate (as it is known to be under Turkish jurisdiction) and already have made a shadow deal with the Turkish government.**

Christos Marafatsos

Unfortunately, he has the role of unofficial personal manager and private consultant to Kimberly Guilfoyle.

He managed to infiltrate in the Trump Campaign early thanks to the connections of (Father) Alex Karloutsos and later with **Matt Schlapp** who appointed him as a member of the [Board of directors](#) at CPAC!

He is a fake entrepreneur, creating front companies from scratch (like Blue Sky Capital Management, which is involved in fraud [[Blue Sky Capital Management to pay USD140,000 over false statements to NFA - Hedgeweek](#)]) copying names of known respected companies in order to deceive and solicit money from his “marks”.

An example follows below (utilizing a Chinese photographer, to create counterfeit photos of himself with random male models, not affiliated with the company).

Christos Marafatsos wife is Andrea Mousouris.

His sister-in-law, Denise Mousouris Northrup is a long-life democrat donor and lobbyist working in kdcr partners, a lobbying firm, aligned mainly to the DNC and which funded GOP representative for Florida, Gus Billirakis.

Marafatsos studied at University of Maryland - The Robert H. Smith School of Business, a university known for its pro-CCP stance and interaction with the CCP business community. That University was one of the original gateways for the “Confucius” program, which has hence been declared a National Threat to the US, as it is an integral portion of the CCP propaganda machine worldwide.

Marafatsos was awarded entry into the program and the CCP funded his trip to China as can be seen below.

About

Christos is the managing principal of Apollo Development, a real estate development and advisory firm focused on large scale real estate and entertainment developments in the United States, Greece, and Saudi Arabia.

Christos served as an advisor to the 45th President of the United States, and has traveled to Mexico, India, Saudi Arabia, Greece, and China representing US interests. He has experience working with international and domestic federal, state, and local governments.

Christos was named 3rd Best Entrepreneur in America by Bloomberg's BusinessWeek and was also recognized by Orthodox Christian Network's 30 Under 30 Initiative as an emerging leader who demonstrates impact personally and professionally through exceptional leadership.

Christos serves on the Board of Directors to the real estate division of the Church of Greece, which owns and manages \$15 billion USD of real estate assets. He had the distinguished honor of sitting on the Board of Advisors for Georgetown University's Real Estate Master's Program Committee and the Harvard Business Review Advisory Council.

Christos earned his Master's degree in Real Estate from Georgetown University and a Bachelor's degree in International Business from the University of Maryland, Robert H. Smith School of Business.

He admits openly that he visited China to “represent” US interests.

Connection to Geoffrey Pyatt

BE PART OF TOMORROW'S WORLD

45

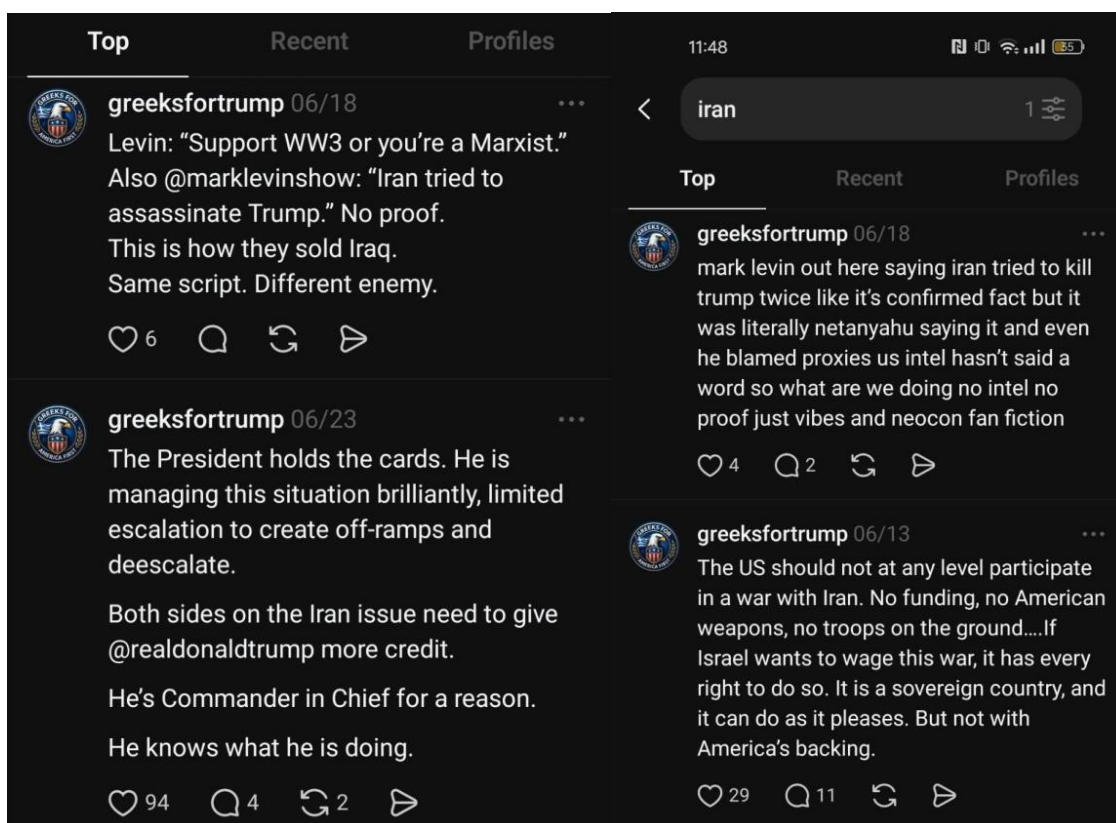

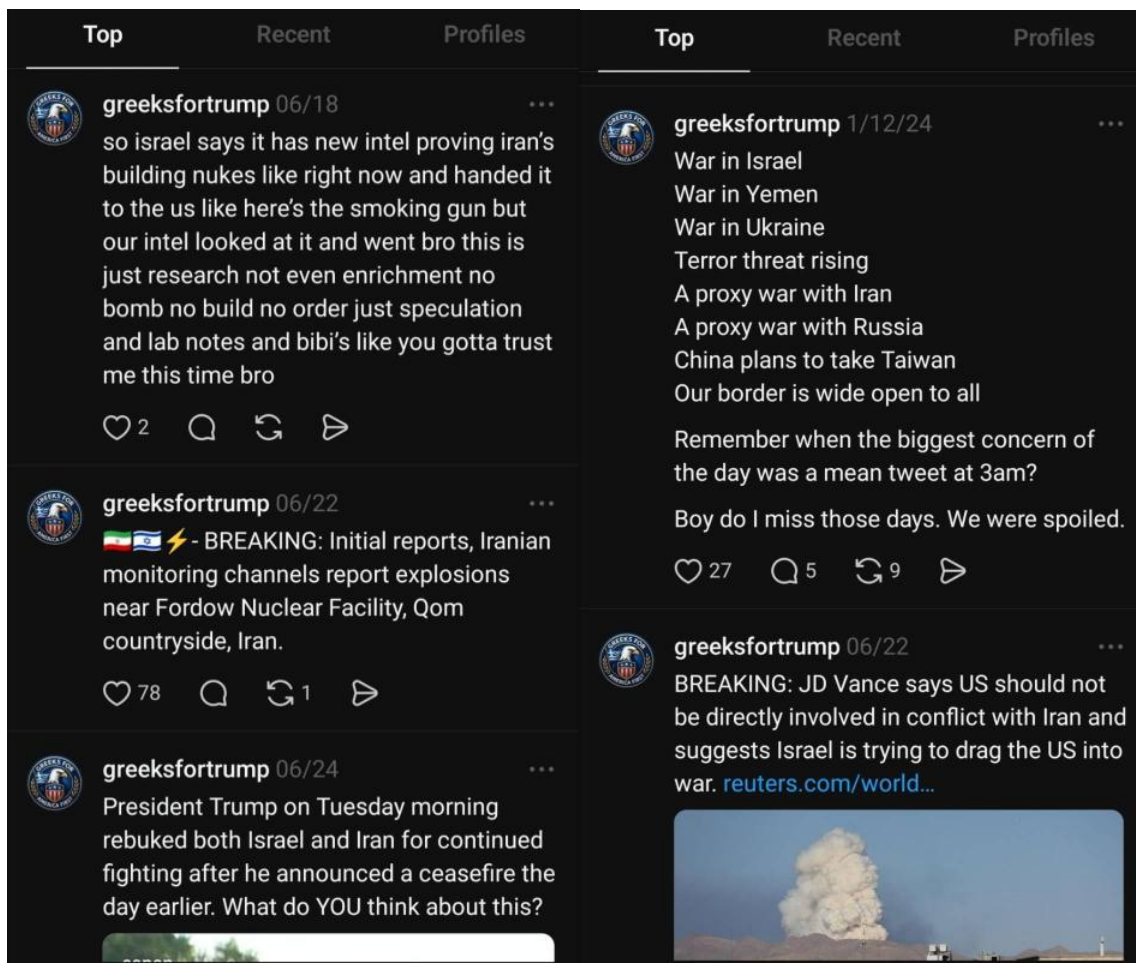

Marafatsos openly lobbied alongside Alex Karloutsos for Geoffrey Pyatt's protégé for the AmchanGR chairmanship Alexandros Costopoulos, but without success.

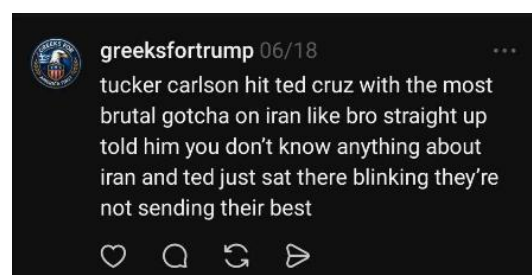

Attitude towards Israel

He has an openly anti-Israel stance over time:

A barrage of posts in the official instagram(@threads) account of Christos Marafatsos openly supported Iran and attacked public pro-Israel figures like Mark Levin.

It is extremely worrying that Matt Schlapp (an ally of Israel) allowed Marafatsos to be at the Board of CPAC, without screening him first...

Marafatsos was very recently designated an Archon of the Ecumenical Patriarchate.

<https://www.helleniscope.com/2025/11/21/the-epitome-of-degradation-the-archons-ridicule-themselves-by-making-marafatsos-teacher-of-the-nation/>

It is extremely interesting that he holds a position in the property management unit of the Greek Orthodox church, alongside Alex Karloutsos. It is stated clearly: “The Church collaborates with the Hellenic Republic Development Fund (HRADF) to utilize the vast area, while a Greek-American businessman is on the board of directors of the company undertaking the project.” [<https://www.helleniscope.com/2022/03/04/the-karloutsos-corruption-family-in-big-church-business-in-athens/>]

And the most interesting part, is that during that time, president of HRADF was Greg Dounis, the Qatari affiliate mentioned explicitly in the next chapter.

(Father) Alex Karloutsos (aka: the “dealmaker”)

A known deep-stater, engaged with the Gulen movement, involved in dark Qatari dealings, [Hunter Biden laptop controversy](#) and Burisma, close friend of Soros puppet Alex Rondos from the 90s.

For years he was the secretary of the Greek Archdiocese in USA and now Protopresbyter to the Ecumenical Patriarch.

He is the person responsible for connecting the Greek political elites to the US presidents throughout the years, always worked for the Democrats and Turkish, Qatari and CCP interests.

[Biden to Hunter-linked clergyman at Greek independence event: 'Gonna ruin your reputation'](#)

Father Karloutsos with Geoffrey Pyatt protégé Costopoulos, while lobbying for him in Washington DC.

Father Karloutsos as an agent for Qatar.

Q. How do You respond to the Greeks in America, who are wondering how it is possible that such things can happen next to the Tomb of Christ, a Patriarch to be essentially imprisoned?

Greeks in America who place their personal interests above our Race and Church are traitors. One of them, I say this with sorrow, is Fr. Alexander Karloutsos, a Proto-Presbyter of the Ecumenical Patriarchate, who, after having ousted the Archbishops of America Iakovos and Spyridon from their Throne, opened his wings to cross the Atlantic and reached our Patriarchate. With his well-known liaisons and with the former American Ambassador to **Qatar**, the Greek-American Patrick Theros, and the then Secretary of State Candoleezza Rice, he persuaded the former Greek Deputy Minister of Foreign Affairs Mr. Scandalakis during their meetings in America, that Theophilos is the most suitable person to oust and succeed Irenaeus because he is a "clever diplomat", as the former Ambassador recommended him to the then Greek Deputy Minister and to the Ship Owner Mr. G. C. Ventouris in his letters dated from February 2001:

«Ambassador Patrick Nicholas Theros Capital Investment Management Corporation 6862 Elm Street McLean, Virginia 22101 Tel: (703) 947-0870 Fax: (703)847-3068 E-Mail: pntheros@canvest.com February 11, 2001 Mr. G Ventouris Ventouris Shipping in care of Capt. Imman. Petroupoulos

*Dear Mr. Ventouris: First, let me wish you and your family and colleagues my best wishes for a Happy and Prosperous New Year. Second, please excuse for typing this letter in English and not in Greek but my ability to type in Greek is limited, more importantly it takes me three times as long. It has been some time since we have spoken and I regret that I have not been able to provide you with much news. The battle in the Sanctions Committee of the UN Security Council continues without profit. However, recently, the **Qatari** Ambassador to the United Nations informed me that the Committee Chairmanship has changed. The new Chairman, the Norwegian Ambassador appears more sympathetic to our needs. The British delegation appears to have dropped its objections. The American delegation is now awaiting a policy lead from the new administration. We should have more news by the weekend. On the larger issue of LNG, we have been delayed because the company which we will join has not yet sorted out its own internal issues. However, it is still an active issue. We are not just confined to Brazil, but may have some good prospects on both the East and West Coasts of the United States. If this works out right, and if we are patient, Ventouris Shipping may be the first Greek company to break into the LNG shipping business. I hope to have positive news on both subjects in a very short time.*

2. Antenna and Atlantic Council Initiative

The new AEGGIS initiative is an attempt to hijack the existing 3+1 framework (Greece, Cyprus, and Israel) and undermine it. Instead of fostering these regional ties, it appears to be pushing an agenda aligned with the Atlantic Council's pro-Qatar and pro-Muslim Brotherhood stance.

Individuals in the Greek diaspora (including the Archdiocese Church) managed to convince Kimberly G. to attend this side-event, during the 80th Session of the UN General Assembly. An event hosted by Qatar-oriented Antenna Group and the Atlantic Council.

Furthermore, USAmbGR appeared at Stavros Niarchos Foundation, a heavy USAID sponsored and Qatar affiliated NGO.

USAmbGR will appear at Great Britain hotel, that is owned by CCP asset Laskaridis foundation, to an event hosted by him.

And though she has received very serious intel from the EastMed Strategic Studies Institute (subsidiary of the Hellenic Chapter of Republicans Overseas) which should have made her cease and desist all interaction with the aforementioned CCP assets, she not only totally ignored all recommendations, but probably went out of her way to do exactly the opposite, despite the fact that she had been explicitly warned by her party apparatus in place in Greece, that there were several traps set up by the previous administration which were aimed at the current US administration, against Israel and against the rapprochement between Greece and Israel.

Additionally, it seems that she handed over all these reports to her unofficial assistance Christos Marafatsos, who it is fair to assume, passed on all the intel to his CCP handlers.

Dear mrs. Guilfoyle,

Sometimes your enemies provide you with the "best introduction" as in their smear campaigns, they are forced to admit that they are cornered... On Saturday past, i spoke at an American Legion event in Western Greece. The "Democrats Abroad" chapter insisted that a statement of theirs should be read to the assembly and here is the most interesting excerpt which I have captured on video and dubbed into English for your convenience:

They are defending the Wokest of the Woke institutions, the Onassis foundation (in a decades long litigation with the heirs of the well known shipowner) which has been accused of promoting child pornography among others, the Atlantic Council - which you are certainly aware as one of the most powerful Dem think tanks, all funded by

Saul Alinsky taught that 8 levels of control must be obtained in order to create a socialist state

- 1) **Healthcare:** Control healthcare and you control the people.
- 2) **Poverty:** Increase the Poverty level as high as possible, poor people are easier to control and will not fight back if you are providing everything for them to live.
- 3) **Debt:** Increase the debt to an unsustainable level. That way you are able to increase taxes, and this will produce more poverty.
- 4) **Gun Control:** Remove the ability to defend themselves from the Government. That way you are able to create a police state.
- 5) **Welfare:** Take control of every aspect of their lives. (Food, Housing, and Income)
- 6) **Education:** Take control of what people read and listen to, take control of what children learn in school.
- 7) **Religion:** Remove the belief in the God from the Government and schools.
- 8) **Class Warfare:** Divide the people into the wealthy and the poor. This will cause more discontent and it will be easier to take (Tax) the wealthy with the support of the poor.

Saul Alinsky said it all in his book "Rules for Radicals" As I mentioned in my speech 2 weeks ago, he was a Trotsky-ite, intellectual, and Hillary Clinton and Obama's professor and mentor. the LA riots are a classic manifestation of his teachings....

but WE THE PEOPLE, believe in God and believe in DJT and the GOP,

We just need to stop the incessant funding by our own Government to the radical institutions

Hi again from Republicans Overseas Hellenic Chapter, I am attaching an article published by Lena Argyri (Washington DC Correspondent) in the main pro-government news outlet "Kathimerini" which you may have heard about and which was one more smear campaign against DJT and our Administration, essentially stating that it had concrete evidence that the US, under the guidance of Ric Grennell would be willing to deliver Greek territory to Turkey in order to keep Turkey in the NATO alliance. Ric was quick to spot it and I am also attaching his response. As we have mentioned in previous reports, all this misinformation originates from the Atlantic council through its main operative in the region, ex US ambassador to Greece Jeffrey Pyatt (Obama appointee) and his cronies in the Greek American Community (Endy Zemenides and Xenia Kounalakis).

Note: if Ric finally decides to run for a California seat he will probably face Kounalakis as his opponent.

Dear mrs. Guilfoyle

I am saddened to report to you that during the last few days many Greek news sites (mostly controlled by the government) have started a media campaign against you. They claim that the following falsehoods are true:

a) that the Administration has changed its mind on the matter of your appointment
b) that the Administration has decided to appoint an interim ambassador in your stead, and they have gone so far as to identify this person as Joshua Huck, a career diplomat with the State Department, current permanent undersecretary for Eastern Europe affairs (he was involved with the situation against the populist leader in Georgia and frequent guest of Atlantic Council events)

c) that additionally your nomination has encountered difficulties allegedly pertaining to inconsistencies in your financial reporting.

All these of course are obviously false, they originated by an interview by Endie Zemenides to a known podcaster Lambros Kallarytis. https://youtu.be/GM_go2YjQ8U in Greek, but you can turn on the cc button for autotranslation in written captions, from 8:30 and on to the end.

I remind you, that as we have mentioned in previous reports, Zemenides is a Dem.

There is some very disturbing news from Greece. A major criminal organization has been arrested in Crete. They are implicated in narcotics distribution, shady land deals and much more. The interesting part is that today a partial phone transcript was released, involving ex-Minister of Defense in Greece mr. Panos Kamenos.

Without further ado, i will copy paste the translation of the transcript.

BECAUSE THE PREVIOUS DESPOTS PASSED AWAY, BUT HE WASN'T ON THE LIST. THE ELECTION WILL TAKE PLACE IN OCTOBER. SURELY BECAUSE IT IS THE WISH OF THE PATRIARCHATE

PANOS KAMENOS: YES

RING LEADER: THE MAN IS VERY CLOSE TO ME, I HAVE SPOKEN TO HIM ABOUT YOU, KNOW THAT I TOLD HIM, BROTHER I WAS AT KAMENOS'S. YOU CAN SUPPORT HIM, THE AMERICAN BASE IN SOUDA WANTS HIM BECAUSE HIS DISTRICT IS AT AKROTIRI (the locale of Souda Naval Base) AND TRUMP WANTS HIM TOO.

PANOS KAMENOS: ON OCTOBER 10TH KIMBERLY ARRIVES AND WE WILL CONTROL THE ENTIRE SYSTEM, I AM WITH HER NOW, SHE IS RIGHT BESIDE ME.

RING LEADER: ARE YOU SERIOUS?

PANOS KAMENOS: LISTEN, DON'T TALK TOO MUCH, IF IT IS UP TO THE AMERICANS, I AM YOUR MAN.

RING LEADER: NO, IT IS ENTIRELY UP TO THE AMERICANS BECAUSE IT IS THEIR TERRITORY.

PANOS KAMENOS: I AM YOUR MAN, I WILL ARRANGE EVERYTHING.

Mr Kamenos had met with me about 3 weeks ago, at his request. I will brief you on the content of the meeting if you wish. He wanted to meet a second time, but I declined.

good evening,
as I await to hear your interview on Ant1 at 11, I cant help but reflect on the State Department's decision to name the 2 Greek Antifa entities as FTO's and the fact that the previous ambassadors welcomed their ideological mentors to the US embassy events, at the same time excluding us and all MAGA Patriots.
Having said that, I continue to caution you on the fact that (as we have succinctly pointed out in our reports) the Greek personnel and many of the US Embassy associated institutions, remain our adversaries and will keep to provide the Administration with corrupted and manufactured intel.
And as an old Greek old saying goes: you see the bait (Cheese) but you don't see the trap.....
And believe me there are many traps, already set up, and waiting to spring in your path.... some we know, some we can only guess.
More when we meet in person.

I suppose your advisors have already briefed you on the contractual method or removing COSCO from the port of Pireaus, the timing is right, but i doubt that the Greeks will comply with our wishes. They are still taking (albeit small) bribes from the Chinese. In your dealings with them, you must always remember that they are corrupt to the core, the only thing they fear is exposure and loss of power. They will pay lip service, appear to comply and when they feel that they have a winning hand reverse course and stab us in the back. Beware of Greeks bearing gifts, and alays do your research very very well on who you address. Lastly, remember that the current Greek administration is at its lowest poll level ever, their party is disintegrating from the weight of the scandals which almost everyday are exposed by the Press, Covesi , even by disgruntled members of the PMs party. The problem is that a few of these cases have heavy involvement by our previous US administrations and your 2 predecessors. Tread carefully and remember, carrot and stick... till now you. are offering them only carrots - the stick(s) are in our reports- and i sense that with your attempt in the media to boost them, the carrot only approach may soon become ineffective. I await your availability for an in person meeting, as we need to address the pressing issue of the midterm GOP voter drive in Greece, as the work we have done in the past (dark- Dem) years must not be jeopardized, but boosted.

Today

Hi again, today you fell for trap# 2. You have a naval attache who should have warned you as I would, had we met. How do you expect me to gather votes for the midterms if we dont coordinate? 9:56 PM

What are you talking about? You're writing me all these negative messages. 10:27 PM

From the chat history it is clear:

- that the last message is not sent by herself, as an attorney would never answer like this (and is also grammatically incorrect) and that means that a third party (Christos Marafatsos) has access to her private phone, as she clearly states: “Christos Marafatsos is my person”. That raises major security concerns **(remember Signalgate, that destabilized the National Security council, and led to the ouster of Pro-Israel security advisors)**.
- She has been multiple times informed for the malign actions of our political enemies (Geoffrey Pyatt etc.), the dangers coming from the current staff in the US Embassy. Instead, she is actively engaging with all the enemies.
- She is actively avoiding a meeting with the official representative of the GOP in Greece. It should be noted, that ROHC is the only MAGA and pro-Israel entity/think tank in Greece.

Conclusion

The above, along with the leaks about a secret plan to grant Greek sovereignty to Turkey, orchestrated by Atlantic Council (Geoffrey Pyatt), Tom Barrack, Massad Boulos should be a wakeup call.

As our objective is to always inform our allies and the GOP about the developments happening in the region, we need to stress that Diplomacy, for the previous administration was about cutting deals and funding our geostrategic adversaries in order to subvert the West from within.

We hope that the same will not hold true for the current ambassador... although the first signs don't seem promising. She has already made many errors, and we are not referring to her rather “Californiesque” lifestyle and choices, but mainly to the very serious errors made in the energy deals which were recently announced and/or signed during the P-TEC conference.

THE ONLY TRUTH ABOUT NEORIO OF SYROS –

WHO IS PANOS XENOKOSTAS REALLY...!!

COMPLAINT

BY: Markos Rigoutsos

a. General Secretary of the Syros Shipyards Factory's Workers Union

from July 2017 until 27-7-2023

b. Deputy General Secretary of the Cyclades Labour Centre

&

Working at Neorion Shipyard in Syros until 10-8-2023 in the following positions:

A) Head of Electronic Mail Supervision of the Commercial Department

B) Consultant to the General Management (directly collaborating with the Financial Directorate)

C) Director of Environmental Affairs

My name is Markos Rigoutsos. I am a 49-year-old family man, I have a wife I respect, honor and love, and a 12-year-old daughter I adore.

Since I was a child, I was fortunate and blessed to grow up in a very moral and loving Christian family, which taught me to have principles, to love my fellow human beings and to walk according to the moral principles of our society and religion and never to lie. Those who have interacted with me from my childhood until today, they know very well that **I NEVER LIE...!!**

I have been working at NEORIO, the Shipyard of Syros since 2001 (22 years) and in recent years I gave my all to the effort to reopen it, because as everyone knows, I was among the few pioneers of this effort that resulted in the reopening of Neorio, with all that this entails for the salvation from the economic misery experienced by all employees with our families, but also the economic decline experienced by a large percentage of Syros society.

All this prologue does not happen by chance...

In recent months there has been an immoral and shameful attack on me, by the president of ONEX himself, Panos Xenokostas, spreading to my colleagues, unsubstantiated and completely false accusations against me, with the sole purpose of slandering me in the society of Syros and in Greece, in order to serve his dark purposes and discredit me towards everyone, due to the fact that I was a very close associate with Mr. Vasilis Savvidis and with his financial director Mr. Yiannis Paschalidis and I know the real truth that he fears so much..., both for the course of Neorion and for commercial and economic issues...!

It is therefore my moral obligation as an individual, but also towards my beautiful family, since he now publicly slanders me, but through others, because he is afraid to accuse me directly since he lies..., publicly too, to defend myself, not slandering him with lies as he and his associates do, but by revealing only the truth, boldly. I don't want my child to grow up with Panos Xenokostas' mud on my face.

By putting titles above each paragraph, the truth will not be confused, and will be more understandable, so that in the end everyone will know, **WHO PANOS XENOKOSTAS REALLY IS...!!**

STRIVING FOR SURVIVAL

Our story begins in April 2017 when Neorion essentially closes.

All of us are now unemployed but also trapped, because we were never fired, we were simply abandoned by the then owner company, so we did not have the right or the unemployment fund benefit to collect...

To be brief, a very small group of the minority of the then Factory's Workers Union, including myself, was approached by Mr. Vasilis Savvidis, who until then and in the last years of the shipyard's operation was the one who kept the shipyard open tooth and nail, as a cooperating contracting company. He told us that he has been approached by an interested investor and that there is hope for Neorio...!

The interested party was Panos Xenokostas, who was willing, **as he said** at the time, to assume all the debts of the shipyard (approximately € 45,000,000), of which € 10,000,000 were the debts owed by the previous ownership to the employees and would repay them immediately after the court decision on restructuring and financial recovery of Neorion Shipyard. He was also willing to invest from the beginning tens of millions more, **as he was drumming up by himself.**

THE PREREQUISITES FOR RESTRUCTURING AND FINANCIAL RECOVERY

In the successive discussions between all of us, Xenokostas asked for assurances from Mr. Vasilis Savvidis that Neorion can be competitive and viable, that it can attract clientele and that Mr. Savvidis will manage the shipyard, because as it was and is known to all of us, but he himself admitted it, Xenokostas knew nothing about shipyards and the investment would be based purely on the know-how and customer acquaintances of Mr. Vasilis Savvidis and his son Nikos.

(I remember that Mr. Savvidis characteristically was telling us that we have friends, we do not have customers in our pockets and we must create the conditions, all together management and employees, to bring them back from Turkey and any other states that have gone, because we have expelled them from Greece, with the wrong tactics and mentalities of previous years...)

Mr. Savvidis and we, as representatives of the workers (as a majority now after union elections...), had made it clear to Xenokostas that he did not need to worry and look for tens of millions from American funds (because he did not have such amounts...). All he had been asked as a prerequisite to start the shipyard, was to find 12.000.000 €. The 10.000.000 € to pay the employees the debts of the previous ownership and the remaining 2.000.000 € to make some initial repairs and maintenance of the equipment of the shipyard so that we can start its operation. The rest of the money for the repayment of the debts, Mr. Savvidis had assured him, would come out of the work of the employees, from the shipyard itself, since with the restructuring plan it would be adjusted in monthly interest-free installments of 25 years, so that the investment would be more attractive and feasible...

THE START (INTERMEDIATE OPERATION)

All of this sounded good, but there was a huge problem. The process of cleaning up Neorion as subsequently confirmed would take a long time (completed in early 2020) and employees had to be able to support their families.

For this reason, after a lot of effort and negotiations, on 31-1-2018, we managed to get a concession of use from the previous ownership, so that we, the employees ourselves, could start operating the

shipyard, having ensured that at the helm of the shipyard will be **Mr. Vasilis Savvidis**, the only one who was able to manage the shipyard and **the man who supported everyone's hopes**.

Because there were no funds, with huge help in sourcing materials from suppliers friends of our shipyard and with a lot of will and effort from the majority of our colleagues, we managed to maintain the basic tools of our shipyard in order to start its operation.

THE COURSE OF INTERMEDIATE OPERATION

Our Shipyard starts in April 2018 and under the proper management of Mr. Savvidis and the moving dynamics of the production capacity of our colleagues, it began to successfully repair one ship after another. Our clientele was constantly growing. Our salaries and shipyard obligations were paid at 100% and with the few profits left, everything began to be repaired. The floating docks, the machinery, the cranes, the buildings, etc. (even the entire cost of lifting and repairing our sunken large floating dock was paid for by our work...)

At the same time, on 14-6-2018 a contract is signed by the cooperating company (although it was not its obligation...) with companies that manage waste and within about 2 years and at a huge cost, tens of thousands of tons of sandblasting waste and garbage that had drowned Neorio, the port and Syros throughout the last 25 years that were accumulating, are removed from the outdoor areas of Neorion, as well as in the same legal way, the largest quantities of oil residues illegally kept in barrels, in tanks and in the open air areas of the Shipyard, were removed. **(Even these environmental clean-up actions, which Xenokostas did not do, were exploited by him and he exploits these to this day.)**

APPROVAL OF RESTRUCTURING AND FINANCIAL RECOVERY PLAN (**The deception...**)

Before the approval of the restructuring and financial recovery plan, the president of ONEX, Panos Xenokostas, invited us (the entire management board of the workers union) to a meeting, showed us a cheque with a written amount of € 10,000,000 and urged us to go and put it in a safe deposit box of the National Bank and preserve it until the Neorion restructuring and financial recovery plan was approved, because as he said it was our money and explained to us that he did this to stop some people doubting him...

In November 2018, the Court of First Instance of Syros approves the (R. F. Recovery) plan. The months go by and the money (10.000.000 €) for the payment of the employees is delayed and does not come, even though there was a check in the box... Finally, after repeated discussions and pressure between me as General Secretary of the Workers Union, Antonis Chatzantonis as President of the Union, Vasilis Savvides as General Manager of the Shipyard and the President of ONEX Panos Xenokostas, **Panos Xenokostas admits that the cheque was uncovered and the money he assured us he had, He never had them....!!**

TRUTH AND DESTRUCTION or COVER UP DECEPTION – CONFIDENTIALITY AND TRYING TO FIND A SOLUTION???

This incredible and tragic for our lives admission of Panos Xenokostas, that he has no money, brought us in front of a very harsh reality, shattered our dreams for survival and family prosperity and finally brought us in front of an unfair and terrible **dilemma**:

Should we go out and tell the truth to the people and to the Government that had believed in the lies of Panos Xenokostas, destroying the hopes of all of us and all the workers, because the

restructuring and financial recovery plan would be cancelled and Neorion would close again, or should we try, begging the Government in every way, to find a solution, to keep Xenokostas' financial poverty a secret and try to save all of us?

Because in front of our families and colleagues, we did not have the right to give up, we chose to try to find a solution.

THE SOLUTION

With the assistance of the Government of New Democracy and with allies the then Minister of Development Mr. Adonis Georgiadis, the then Minister of National Defence Mr. Nikos Panagiotopoulos, its Director Mr. Thanasis Valaris and the leadership of our Navy, it was decided to assign a project, the repair – maintenance and upgrade of 2 floating docks of our Navy.

And at this point, I must also thank SYRIZA, which, although from the beginning had its correct objections to the solvency and financial standing of Panos Xenokostas, never stood in the way of the process of cleaning up Neorion, nor did it object to this project, because it knew that it was good for the workers!

THE RESULT

From the profits of this project carried out by Mr. Savvidis' partner company, combined with some of the profits of the Neorion merchant ship repair sector, which was again operated by the cooperating company, it was possible to repay 70% of the debts owed to the employees, one year after the R. F. Recovery decision in November 2019. *(There is evidence from the bank checks and extres of this particular company.)*

Due to the fact that ONEX never brought capital, the remaining 30% of what was owed to the employees was given about a year later, in 2 installments, after saving money from profits, due to the proper management of Mr. Vasilis Savvidis, along with the hard work and excellent cooperation of the employees of our shipyard...!

CONCLUSION

Due to our investor came out fake..., the Investment and Repayment of the employees' owned money was carried out under the guidance of Mr. Vasilis Savvidis and with money from the labor and art of Neorion Employees!!

THE NEXT DAY

With the excellent results of the maintenance and ship conversion works it undertook, Neorion was constantly increasing its clientele and re-establishing itself in the domestic and global market and **the only thing that was heard, because Xenokostas wanted only that...**, was that Xenokostas and ONEX saved and regenerated Neorion and the shipbuilding industry of Greece... **Xenokostas never publicly thanked those who actually did it...** Not even at the official opening... And I don't mention it as a complaint... Just to show **the magnitude of ingratitude and thirst for personal publicity and recognition, even though it was based on a big lie...** (that he was a big investor...) and **he didn't deserve it.**

(All that Mr. Savvides instigated and knows about, I wanted to ask why he is silent and leaves us who participated in the rescue so exposed? Is there any special deal and he doesn't want to tell the truth?)

And one of the very strange things about that case, was that Xenokostas continued to showing interest for the Elefsis Shipyards, even though there was never any money...

THE GREAT WOUND

His interest for the Elefsis Shipyards was the subject of many discussions between us and Xenokostas. He thought he could do what he did in Neorio, but the size of the debts were not the same and this time it was made clear to him that none of us would deal with Elefsis, neither we as a union, nor Mr. Vasilis Savvidis, nor Nikos Savvidis, because their agreement was only for Neorio, even though the Neorion agreement had not been respected by Xenokostas... This was the beginning of the rupture in our relationship and in his relationship with Mr. Savvidis. We **were asking** from Xenokostas **that Elefsis should have nothing to do with Neorio, so that the future of our Shipyard would not be affected by Elefsis**, even though he assured us that they would be two completely different shipyards that would never affect each other, **he did not comply with this either**.

ZERO INVESTMENTS

From the day that he started deal with the Elefsis shipyard and essentially from the day ONEX took over the management of Neorion in early 2020, no serious maintenance was carried out again at Neorio, but also no substantial investment in new technologies/machinery as promised. I don't think it was a coincidence...

Although Neorion was profitable with record annual turnovers, we did not see any investments, our machines were becoming useless, the maintenance of our large floating dock was constantly postponed (it still has not been done, while it should have been done by April 2023 at the latest) and information says that debts to material suppliers have multiplied. On the other hand, we saw huge expenses for maintenance and payments of some millions to the employees of Elefsis in relation to the restructuring plan... Because these two contradict each other... Whoever understood, understood.

Noteworthy, of course, is the fact that **he is the first alleged investor to constantly advertise the fact that he was approved a loan from America...**

I wish my colleagues in Elefsis that the loan would not be like the money that never came to Syros, because even then money from American funds was supposed to wait...

THE CHRONICLE OF THE RUPTURE

All the above, but also the fact that 4 people all over Neorion knew his bitter truth..., made Xenokostas not feel like "the Big Investor" in front of our eyes and this bothered him a lot... And it bothered him even though we kept it as a closely guarded secret, for the good of our NEORION! **And I don't know what deals he might have had with the others. What I do know for sure is that I never made any deals with anyone!!!** So, even though he did not deserve it, we always looked only at his good, we looked to praise him and hide the truth, in order to protect the name of Neorion who was now identified with this man.

So our first rupture came just before our Union's New Year's cake cutting event at the end of 2022.

Xenokostas asked to meet us in Athens (me and Chatzantonis). In this meeting, he asked us if we would invite all the Local Authorities of Syros, but also all the candidates for Mayor. When we replied that we

have the obligation to invite all of them and we have already invited everyone, then he stated categorically that if Mr. Aris Rotas comes, he will not come to our New Year's cake cutting event himself...! **Choose, Xenokostas told us..., or Rotas or I...!! And the only candidate who wanted to come was Mr. Alexis Athanasiou.**

So, in order not to create a problem, we had to ask Mr. Rotas not to come to the New Year's Pie cutting event of our Union and the man accepted it with dignity...

As you understand, Xenokostas does not want partners and unions with opinion and independence... He wants to command everyone and be obeyed, even if what he asks for transcends everyone's moral barriers. Otherwise he blackmails...!

Our second rupture came in early 2023, when in a conversation we had, we told him that we were being informed by our own client companies, that the commercial department of Elefsis Shipyards has already annoyed 7 ship-owning companies that bring their ships exclusively to Neorion and that this is not good, because Elefsis should not operate competitively against Neorio. Xenokostas admitted nothing and started shouting furiously. (Although he had secretly asked the commercial department of Syros some time ago (without informing Mr. Savvidis...), to send him the list of all our customers...

After some time, he invited Mr. Yiannis Perlepes, who worked in the commercial department of Neorion in Syros, to a meeting in Elefsis and asked him to help him increase the clientele of Elefsis with companies from the clientele of Syros. When Mr. Perlepes refused him, respecting, I imagine, all colleagues and thinking of Syros and Neorio, Xenokostas fired him.

Our third rupture came when he proposed to us (me and Chatzantonis) to become National Guardsmen to parade along with the Prosecutor of the Appeals Court of Syros and we refused him...

He then told us that he became a National Guardsman too, so that he could manage Mr. Prosecutor of the Court of Appeals who is already a National Guardsman, so that in this way he could fuck (as he said...) the Prosecutor of the First Instance who does not like him...!! That is why he will parade in the parade of March 25, 2023 together with Mr. Prosecutor.

As you can see, **because we respect the judiciary and it is not in our character to manage others, we REFUSED.** He got angry again and told us that we don't think about the good of the shipyard... Although he does not like Mr. Prosecutor, he was forced to become a soldier and do the Karagiozis..., as he told us, for the good of Neorion...!!

Our fourth rupture came when again in a discussion close to this summer, we talked to him about the huge problems that Neorion now has due to issues of non-maintenance and non-modernization of its machinery, about the problems that Neorion will have in the near future, due to non-modernized production methods, which will put us at a great disadvantage against competition, about the dangerous situation that our large floating dock is in again, which he is constantly postponing its repair for financial reasons and finally we announced to him that he did not comply with our initial agreement that Elefsis would never affect Syros, because the commercial department of Elefsis had now approached almost all the Companies-Customers of Syros.

And worse..., without warning, he cut off the access to customers' emails to Mr. Savvides and his Son... **In other words, he cut off their access to the customers they had brought to Neorio...!!** And he did this to manage them with his new... partners and to distribute Neorion customers to all 2 shipyards...

THE DIRTY REPRISALS

Understandably, **Xenokostas did not like our correct stance, which was in favor of the interests of Neorion and the employees...**, because it spoiled his plans and maybe he felt threatened that his secret might be revealed in the end... So he put in place a very dirty plan, which we could never have imagined...

From about May until June 2023, he started throwing mud on the market through his associates from Elefsina, but also inside the shipyard of Syros (through employees he now has as henchmen... and uses them...) slandering me, Antonis Chatzantonis, Vasilis Savvidis and Nikos Savvidis with various completely false and shameful accusations...

APPROACHING JUSTICE FOR SECURITY

In the midst of all this, information from Athens and Elefsis about Xenokostas' dangerous practices was growing and our concern for the safety of ourselves and our families was growing. There were (and there are recorded on social media) complaints from members of the Elefsis Shipyard Workers Union, talking about Xenokostas' henchmen bullying and day by day we felt threatened...

For this reason, we thought of talking to the president of the Cyclades Workers' Centre, Markos Voutsinos, because we knew from him that he has a very friendly relationship with the Prosecutor of the Court of Appeals, and we asked him to inform him so that he could tell us how we could protect ourselves from any mafia practices of Xenokostas.

TREASON...

The president of the Cyclades Workers' Centre, Markos Voutsinos, did not do his duty as he ought to, as president of an institution, but also as a relative and friend... You see, the 30 pieces of silver have timeless significance and enormous value for such people...! Instead of helping as he should, he immediately ran and told Xenokostas everything...!

THE RESIGNATION OF SAVVIDES

After such behavior, Mr. Vasilis Savvidis resigns, sends his resignation to Xenokostas and communicates it to the Management Board of the Workers Union. Xenokostas immediately calls him and asks him not to make it public until they talk in person. On July 5, 2023, we traveled 8 members of the Workers Union to Elefsis and met with Xenokostas, because the issue that arose was very serious.

The next morning, Xenokostas traveled with us to Syros in order to talk with Mr. Savvidis. Then Xenokostas spoke to all the employees of the shipyard and told them verbatim that: "Whoever again accuses Savvidis, throw him into the sea and better not know how to swim in order to drown...! Vasilis Savvidis will always be by our side in Syros and always by my side, to help me because I will now take over the General Management. (There is also a recording...)"

SOMERSAULT

But this lasted only for a few hours, because the same night Xenokostas issued a press release saying that ONEX is ending its cooperation with Mr. Vasilis Savvidis...

DROVE AWAY THE REAL INVESTOR

Understandably, Xenokostas wanted it to appear that he had kicked out Mr. Vasilis Savvidis.

So he took sole responsibility for kicking out the REAL INVESTOR...!!

THE MUD CONTINUES

Ours slander continued and continued by some employees who said that they were talking to Xenokostas and that their information was from him.

And all of this continued and was orchestrated by him, aiming to remove us from the Management Board of our union through a vote of censure, so that he could dismiss us and cease to be an obstacle to any of his plans.

THE RESISTANCE OF THE WORKERS

Unfortunately for him (about 100-150 people he was able to influence and organize with his lies, while our members were 428). They did not complete the majority required for censure, because more than 2/3 of the workers did not sign... So after 2 days he recruited from lawyers to directors and with blackmail they managed to force the majority of the members of the Management Board the Union to resign.

THE REWARD AND THANKS OF MY HONEST AND MANY YEARS OF OFFER

Finally, as a reward for my Honest, Valuable and Long-Term Contribution to the Syros Shipyard, to my Colleagues and to Panos Xenokostas himself, **he** generously offered me on August 10, 2023, an **illegal and abusive CONTRACT TERMINATION**, even though the law protects me for 12 months after the end of my trade union term...

And it didn't stop there... My conscience does not allow me to forget to mention that he dictated to the Provisional Management of the Workers' Union, **3 pages with false accusations** against me, against Mr. Vasilis Savvidis and against Mr. Nikos Savvidis and ensured they were distributed individually to each employee in sealed envelopes, aiming to ensure complete defamation against us....!!"

CONCLUSION

So this guy, who only makes noise, made another tragic mistake..!

He did not calculate that those who always marched under their banners of honesty and truth, those who never buckled and achieved the impossible, they would not bend or fear vagrancy and lies!!

The one who should be afraid is you, Panos Xenokostas!

You must fear the Truth, which frightens you so much,

You must fear the Justice of our Country,

You must fear the wrath of the world you have deceived,

You must be afraid of people who got false hopes for their future,

You must be afraid because, due to Neorion you acquired some money that you enjoyed although you never deserved it, you thought that you could become the Godfather of Syros, to command, to threaten, to select Unions, to choose Mayors, to select Harbor Masters and Local Authorities, to pay and to destroy the dreams of all the others.

FIXED EXCUSE...

I'm also waiting to hear his classic excuse...

Anyone who tries to speak, receives Xenokostas's entrenched lie...: That we want to shut down the Shipyard...

And I ask? Who would shut it down??? Me? Or all of us together who covered his financial insufficiency??? Which we wrongly hid in the end, as it turns out... Where did we work and write history that was called a miracle???

I am extremely sorry, but unfortunately, **You will shut it down Panos Xenokostas!** With your financial insufficiency, with your irrelevance to your evilness, with your vagrancy and with your ingratitude.

And you do and say all these things, because you seek to find an excuse for your impending disaster and **the only one responsible for it, is only you.** No matter how many masks you wear, everyone can see through them now and knows who you truly are..!"

You are a person who behaves obsessively, manipulatively, dictatorially, egocentrically, dishonestly and with complexes. A person with unresolved nouveau riche issues, a person with a complete lack of respect and empathy towards fellow human beings, who, in order to achieve your dark purpose and your unresolved issues, you step on corpses, you deceive, you lie, you destroy the moral and honest, you mock Governments and Parties, you risk the lives of all workers and the worst... You do not repent, but you continue with even worse actions....!!

END

I therefore hold you responsible, Panos Xenokostas, for anything that happens to my physical integrity and the physical integrity of my family.

And I challenge you, Panos Xenokostas, to sue me, as you usually do to those who tell the truth..., so that we can be in a Courtroom and let the world know even more..!

And since none of your accusations are true and you know very well that I am blameless, try to find any false witnesses, as you usually do...

Otherwise, if you have the courage, dress up yourself with your lies, call all the mass media, to strip you naked in front of them with evidence, so that everyone can see who you really are..!
